The Emperor received Chancellor von Caprivi in Potsdam at 12 o'clock to-day and approved the speech from the throne which the Chancellor com-pleted yesterday. The main points of the speech fiscal reforms, the commercial treaties with Spain, Servia and Rumania, the condition of the army and the peaceful international outlook.

The Deputies from Alsace and Lorraine hav decided that immediately after the opening of the Reichstag they will demand that the present system of administration in the annexed provinces reformed. They think the cordial reception given the Emperor during the Metz manoeuvres justifies the hope of the abolition of all exceptional laws. The opinion in official circles is that the Government probably will announce its inention to continue the present regime until the twenty-fifth anniversary of the annexation of provinces, when they will be annexed to

Much attention has been attracted by Rudolph Arad's "Life and Speeches of Chancellor von Caprivi." Arad't says that the Chancellor's family name was originally Kokrina, and the family came from Carpiola, Austria. Caprivi, who allowed the author to draw upon official sources for details, flatly denies both assertions. He denies also the generally accepted report that he is descended from the Hallan Caprava-Montecuculi. The Chancellor says that the earliest documentary reference to his family mentions Julius Caprivi, born in 1855, who served Count Stolberg-Wernigerode as Chancellor. While visiting the Chancellerie yesterday the United Press correspondent saw Caprivi's rooms, formerly occupied by Bismarck. The great bed, made especially for Bismarck, its surrounded with strong fron rods. Major Ebmeyer. Caprivi's chief aid, explained that the rods were not intended to protect the occupant against an assassin, but were placed there by Bismarck to keep his big dogs from getting under the bed.

### CUBAN REVOLT SAID TO BE CRUSHED. A FEW INSURGENTS IN THE MOUNTAINS-CAP-TAIN-GENERAL CALLEJAS'S REPORT.

Havana, Nov. 12.—There are reports of occasional engagements, in the last few days, between the Government troops and the few remaining insur-rectionists who managed to escape in the decisive engagement last Sunday and took to the mountains. These men are pledged to fight to the death. The revolt falled for lack of support. None of the former Cuban chieftains known to be on the Island have figured in the aprising. Captain-General Callejas has sent out the following official report of the situation:

The revolt did not last twenty-four hours, the insurgents being completely routed and order being restored in Villas and throughout the island. Thirtyme of the participants in the uprising near Las Cruces have been captured and are being tried by the courts. Among them is the principal leader, Cardoza. The rest, except two killed and three wounded in the engagement at Patrielo, have re-turned to their respective homes. Only Esquierro and Queredo remain at large. These two are hiding to avoid arrest for the murder of Antonio Parcz, but their capture will soon follow."

London, Nov. 12 .- The Rome correspondent of the Central News says: 'The Pope received on Saturday an important deputation of Catholic notables. Replying to their address, he strongly denounced the enemies of the Church. He exhorted his audience to stand firmly united beneath their sacred flag and fight the foes of the Church vigorously, without fearing their power or audacity. The faithful might be ussured that the sceptres of Caesarism and the swords of their persecutors would fall harmless at the feet of the Papacy."

### TROUBLE FEARED IN GUATEMALA. DARRIOS DISSOLVES THE NATIONAL ASSEMBLY AND MASSES TROOPS NEAR ITS HALL.

Panama. Nov. 3.-It is believed that a serious revolution menaces Guatemala, owing to the course of President Barrios. This is indicated by new facts which have reached here in the last few days. At a council of the Ministers the discus ras so warm about the decree of Barrios resolving that from October 1 10 per cent of the total import duties should be paid in national gold, adding 10 per cent on each quarter following from January 1894, until 80 per cent in gold should be reached, that they came to blows and even injured one another. In view of the hostility of the National Assembly, the President decided to dissolve that body, assuming to himself all the powers. Immediately afterward he placed in the neighborhood of building where the Assembly had met large bodies of regular troops. A similar display of force and arms was made in other parts of the city. A prominent citizen of Guatemaia who was formerly a partisan of General Reina Barrios, was obliged to change his nationality, becoming a French citizen, to escape the wrath and vengeance of the President. Although some of the Deputies, from prudence or fear, abstained from going to the meeting, those present showed a good deal of energy and patriotism.

The political situation of Guatemala is critical. The excitement is great throughout the Republic, and just what effect this bold move will have on the revolutionary movement in the northern part of the country is not known. It is feared that the President intends taking measures to bring about a Central American union by force.

Owing to alarming indications of discontent and a purpose to begin yei another revolution on the part of the dissuitisfied in Nicaragua, the National Assembly has resigned into the hands of President Zolayn all powers to act. bodies of regular troops. A similar display of force

He condemned without measure the great landowners in oppressing the peasants, and compared the condition of Sicily with that of Ireland. Each Ireland, he said, was governed by a cabal of malefactors who provoked the people to violence. He urged the Sicilian peasants and workingmen to stand together against the aristocrats and their heipers, and to join hands with the discinherited of other nations. Defeliee's speech was cheered repeatedly. The meeting closed with the cry: "The social revolution forever!"

Cowen, the English composer, was produced here this evening in the Teatro dal Verme. The libretto is based upon Ouida's novel of the same name. The opera was highly successful. ## ROUND AROUT EUROPE.

PROPOSED CANAL ACROSS IRPLAND-A MAHOM-

MEDAN WOMAN DOCTOR. Erin to Be Cut in Two.-Ireland is to be cut in two if the project now in course of promotion by Mr. Gladstone's friend, Sir Edward Watkin, the great English railway magnate, is put into execution. Sir Edward has in view a canal across Ireland from Dublin to Galway Bay, and the estimated cost of the scheme is \$40,000,600. The originator of the scheme was the late Marquis of Anglesey, and its promoters put forward, among its advantages, the shortening of the route to and from the United States.

The First Mahometan Woman Doctor.-Woman's Rights are rapidly making headway in the Old World, for in England a lady by the name of Miss Loch holding the position of superintendent in the Indian Military Nursing Service, was called upon at a public dinner to respond to the toast of "The Army," while the Russian Government has just appointed as principal medical officer of the trans-Caspian town of Kassiman, Mme, Bibl-Radya-Koudloularow, the first Mahometan woman who has ever succeeded in passing the examinations entitling her to a diploma of doctor of medicine.

Legal Status of Ragpines.-Ragpines have jus been pronounced, by the decision of a London court of justice, to be musical instruments. There has always been a doubt with regard to this, especially in the minds and ears of those unfortunate people who do not possess the inestimable ad-vantage of being born north of the Tweed. But henceforth the Scots will be able to refer to the decision just rendered, which, in course of time, will find its way into the statute book of Great Carnot a Victim of the Epidemic .- President Car

Fifty Years a Doctor.-Privy Chancellor Virehow the famous German scientist, has just celebrated the semi-centennial anniversary of his doctorate. an occurrence which the University of Berlin signalized by renewing his diploma as doctor. # BOLD MEXICAN REBELS.

THERE DARING OPERATIONS EXCITE ALARM IN THE CITY OF MEXICO

El Paso, Tex., Nov. 12.-The City of Mexico is in the greatest excitement, and the military and civil authorities are busily engaged in arming residents with all the weapons obtainable. The cause of th excitement is due to information received by the military commander and the commander of the frontier customs guards that the city, and particularly the custom-house, will be attacked by the revolutionists, a detachment of whom captured the custom-house at Las Palmas, ninety miles west of here, last Tuesday. The revolutionists, or "Or-ronunctados," or "Pronunctados," several days since issued a "pronunctamiento" against the Mexsince issued a "pronunciamiento" against the Mexican Government, and distributed it along the border and to the south. This fact became known to the Government, but no attention was paid to the matter until the attack and capture of the custom-house at Las Palmas, which was a complete surprise. The authorities have information that the revolutionlets are now on their way to Juarez from Palmas and are about 600 strong, while there are other small parties continually joining them from the mountains to the south and west. The fighting force at Juarez consists of three cavalry troops, sixty-five mounted customs guards, and somathing over 350 deputy policemen, all under the command of Colonel Zuberkerski, of the 11th Regiment, cavalry.

Matamoras, Mexico, Nov. 12.—A great sensation has been created here by the telegraphic announcement from the City of Mexico that General Juan Cortina, one of the greatest revolutionary leaders of Mexico, has been arrested and imprisoned in the San Juan De Ulloa prison, by order of President Diaz, for attempting to incite another revolutionary uprising against the Government. The city of Matamoras is General Cortina's old home. Twenty-five years ago he was the most desperate and most feared man in Mexico. He ruled the Rio Grande border country from Larcelo to the mouth of the river, and was in the revolutionary business as a means of gaining a livelihood. His influence was so great that he could inaugurate a powerful revolutionary movement against the Mexican Government by a single pronunciamiento with his signature attached. His exploits during the Civil War caused the United States Government to lose many thousands of dollars. When President Diaz's revolution ended in success, General Cortina vas summoned to the City of Mexico, where he has been kept in constant surveillance by President Diaz's ever since, to prevent him from inciting further revolutions.

Mr. Sanford was attacked by the disease about three weeks ago, and since that time he has been under the care of Dr. Iandon Carter Gray, who is well known as an authority on nervous diseases. His mother, his brother, John Sau-ford, and two professional nurses are also in attendance upon him. When first strickes Mr. Sanford lived at the Cambridge, in Fifth-ave., but when his attack as reporter was told that Mr. Sanford was improving.

A HISTORY OF UNITED STATES STAMPS. From The Washington Capital.

Mr. H. A. Kelly, of the stamp division of the Postoffice Department, is writing a brief descriptive history of the different United States stamps issued since we have had stamps for the annual report of the third assistant postmaster-general. It

is the first story of the stamps which has included them all, and contains a large amount of interest-ing historical data for such a small report. Mr. Kelly knows pretty nearly everything about stamps. He has been a long time in the stamp division.

NEARLY READY FOR SEA.

A LARGE CONSIGNMENT OF GUNS FOR THE WAR VESSELS.

WORE ON THE BRAZILIAN FLEET ALMOST FINISHED-EL CID'S SEARCH-LIGHT

Work on the Brazilian fleet went forward stead-ily yesterday, although with less energy than usual. During the first week or so of fitting out the vessels, work was carried on night and day. Now, however, it is stopped at midnight. The men have become tired out by the heavy strain on them. Several policemen wander about the pier keeping order in the crowd that watches the ships from morning to night. Private detectives in plain clothes keep close watch on all suspicious characters. El Cid's battery is nearly completed. A permit was granted at the Custom House Saturday for the transfer of 174 cases of guns from the French steamship La Touraine to El Cid. They were consigned to the Hotchkiss Arms Company, and some trouble was had in getting the permit. The guns were transferred Saturday night. The powerful were transferred Saturday night. The powerful search-light was put in place yesterday on top of the pilot house, between two revolving cannon. It will be tested to-night. It seems probable that El Cid will sail before the end of the week, and waif in some West Indian port until she is joined by the Britannia. Captain E. L. Zalinski, who has been identified with the dynamite gun, and has been on duty in San Francisco, left that city Saturday for New-York. It is said that he has been detailed, at the request of President Peixoto, to accompany El Cid and supervise the userof her big gun. Such action would not be unprecedented. The United States has often loaned army and navy officers to Oriental governments for purposes of instruction. All the watch and division officers positions on El Cid have now been filled. The names of most of those going have already been published. They are Macdonough Craven, T. H. Lowe. Bingling, who has not been mentioned before, is a graduate of the Naval Academy, and Lowe was until recently a lieutenant in the United States Revenue Marine. The surgeons of El Cid will be Dr. J. A. Touner and Dr. A. J. Armour; the Britannia's surgeon is Dr. Randail, formerly in the employ of the United States and Brazil Steamship Company.

It is said that Irving Blount, a graduate of the Naval Academy, will be a watch officer on the Britannia About 300 men have been engaged for the crew. The chief gunner will be E. F. Miller, now at the Brooklyn Navy Yard, and formerly a gunner in the United States Navy. search-light was put in place yesterday on top of

A MERCHANT STEAMER HIT BY BULLETS. The Lamport & Holt steamship Melbourne arrived here yesterday from Brazilian ports. She left Rio nearly six weeks ago and went to Santos, where the remained until October 18, when she salled for New-York, touching at Bahia and Santa Lucia on the way. The Melbourne brought 57,499 bags of coffee, worth over a million dollars. This is said to be the largest cargo of coffee brought to New-York. Captain Grimes reports that everything was quiet at Eahia and Santos when he left. At Santos preparations for defence had been made, but there had been little use for them.

been made, but there had been little use for them. Only one abortive attempt was made on the town by the rebels.

Some time before at Rio the Melbourne, which had taken a load of cattle there from Buenos Ayres, was involved in a flerce but brief fight between two of Mello's torselo boats and some soldiers who were protecting the landing of the cattle. A number of rifle balls flattened against the iron shies of the Melbourne, but did no harm. Mello's boats were finally beaten off and the cattle put safely ashore.

Captain Grimes thinks that Peixoto's new fleet stands no chance against Mello's navy, in spite of the excessively bad markmanship of the rebel gunners. COURT AND COUNTESS FESTETICS ALL RIGHT.

San Francisco, Nov. 12 (Special).-The reports that Count and Countess Festetics were in danger of having their South Sea cruise suddenly ended by mutiny and seizure of their yacht by their sailingmaster are now shown to have been canards, The yacht Tolna reached Honolulu on October 30, The yacht Tolna reached Honolulu on October 30, and from the accounts received here everything was well on board. The Countess, who was Missicilla Hagzin, daughter of the mining millionaire, was found in command, dressed in a jaunty saling costume. She said the yacht hadn't averaged over eight knots because of frequent caims, but that it could reel off fifteen. The Count proposes to give a series of receptions to Honolulu society people, and the yacht was being decorated for the purpose when this letter was written. It is thought how in this city that if the sailing-master made threats of selzing the yacht it was when in liquor.

## \$26,237 00 THE HAWAHAN BLUNDER.

A BLOT ON THE COUNTRY'S HISTORY. From The Buffalo Express.

Never before was such a deed done by an American President. Never was the right to do it assumed by the Chief Magistrate of a free republic. It is a biot on the history of the United States, an infamy for which Americans will blush generations hence. The report of Secretary Gresham reads as if it had been written by Claus Spreckels himself. IT WILL BRING AMERICA INTO CONTEMPT.

From The Indianapolis Journal.

To assist in re-establishing such a monarchy as that which existed in Hawaii prior to the revolution and in restoring to power such a ruler as Queen Liliuokalani would bring the American name into deserved contempt throughout the civilized world. Little as we expect of the Cleveland Administration, we do not believe it can fell so low as that

# THE POLICY OF INFAMY.

From The New-York Sun.

Never before has an American Executive undertaken to stamp out republicanism and to set up monarchy in any part of the world. Never before, we believe, has an American President issued orders for the assassination of a free and successful Government. Never before has any officer of this Government undertaken, upon his sole responsibility and without consulting Congress and the people, to decide the destiny of a foreign country in diplomatic relations with ourselves. Never before has a Precident invited or commanded his Cabinet advisers to assist him in the odious business of setting up again a rotten and broken throne. From The New-York Sun.

IT COMES NATURAL TO MR. CLEVELAND. From The Albany Evening Journal.

Evidently Mr. Cleveland favors autocracy in government, since he practices it himself. It is not strange, then, that he should favor the establishment of autocracy in Hawaii.

NOT POPULAR IN A REPUBLIC. The announcement that a monarchy has been or is to restored seems harsh to Liberty-loving people, especially when the restoration is to be made by a government that is republican in principle.

A HEAVY RESPONSIBILITY. From The Washington Star.

Responsibility for the destruction of American in-terests and influence in Hawaii and for bloodshed and loss of life, which may result from this effort of the great kepublic to belster up a rotten pro-English monarchy, will be upon the administration of Mr. Cleveland. And the burden will be heavy.

NOT A PAIR TO BE PROUD OF. From The Philadelphia Record.
The Cleveland Administration has made a mistake. Queen Liliuokaiani and King Spreckels are not a pair to be proud of.

IS IT A SECRET ACT OF WAR? The Provisional Government of Hawaii has been recognized by the United States and by Russia, and it cannot be overthrown except by an act of war. Congress has not declared war, and the President has no right to declare it in a secret manner and inform Congress and the American people afterward. From The Rochester Democrat and Chronicle.

EITHER INCOMPETENCY OR CORRUPTION. From The Hartford Post.

Gresham's position is entirely illogical. Senator forgan, a good international authority, points it at. The members of Cleveland's own party are stounded. Nothing but incompetency or a corrupt greement can account for such a policy, a monunchal biunder and thoroughly un-American. AFRAID OF ITS EFFECT ON THE ELECTIONS From The Troy Times.

A point worthy of note is the fact that the com-munication bears the date of October 18. Why was it held so long after completion? Did the Admin-istration fear the effect it might have upon Demo-cratic fortunes in last Tuesday's elections? It ap-pears that way.

NOT A PATRIOTIC COURSE. From The Newark Advertiser.

From The Newark Advertiser.

The simple question is: Is it right to restore the Queen, or is it right to allow the people of Hawaii to rule themselves in the manner most satisfactory to them and calculated to promote the best interests of the community? We do not see that Mr. Gresham has answered the question in a patriotic, liberal and impartial way.

IN EITHER CASE THERE IS NO EXCUSE. From The Washington Post.

If, as Mr. Gresham insints, the deposed monarchy is backed by an overwhelming public sentiment, it will re-establish itself without aid from us. If

not, and if the existing government be roothe people's sympathy, and inherently capal self-support, the employment of the United forces to overthrow it would be an act of the est and most wicked tyranny.
